## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11-14 and 22 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Pitesky USPN 5,931,794.

Pitesky discloses a device comprising:

(Re claim 11) "a cup having a base and a side wall defining a cavity, the side wall having a rim" (46,28 figure 7). "a projection ... extending from a central region of the base and extending above the rim of the cup" (38 figure 7). "cavity forms a moat that surrounds the projection" (28 figure 7).

Pitesky does not disclose being made by a one-piece plastic molding process.

However product by process language in an apparatus claim does not further limit the apparatus itself. Therefor claim 11 stands rejected over the prior art of record.

(Re claim 12) "projection is constructed as an upwardly directed blade" (32 figure 7).

(Re claim 13) "upper end of blade is serrated" (32 figure 7).

(Re claim 14) "constructed as a one-piece plastic molding" (product by process)

Art Unit: 3651

(Re claim 22) "projection is a blade having an upper end that extends substantially along a diameter of the cup and includes teeth spaced apart along said diameter" (figure 8).

***Allowable Subject Matter***

Claims 23 and 24 are allowed over the present prior art.

Claims 16 and 18-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
